

The Story of the Image of The Divine Mercy

Read the story below and complete the activity on the following page.

One cold winter evening in 1932, while St. Faustina was in her little room, Jesus appeared to her. Saint Faustina said she could not move. All she could do was stare at Jesus. After a while, Jesus told her that He wanted an image of Him to be painted just the way He looked to St. Faustina that night. Jesus said that He wanted everyone in the world to be able to see this image of Him. He promised that He would grant many blessings to those who would treat this image with love and respect, just as if they were seeing Jesus in person.

At first, St. Faustina thought she was supposed to paint the image. She tried and tried to paint it, but she just couldn't do it. Finally, the priest who was working with her decided to hire an artist. Saint Faustina told the artist how Jesus looked to her. She was taken to the artist about ten or twelve times to work on the painting until Jesus told her it was good enough. This image is called The Divine Mercy Image. Many copies of the Image have been made and it has been shared with people all over the world just as Jesus had asked.

Do you have an image of The Divine Mercy? If not, be sure to get one and treat it with love and respect, just as if you were with Jesus in person. In this way you will make Him very happy and He will grant you many blessings. Thank Jesus and tell Him you love Him. You may also want to give your friends and family members copies of this picture too, so that they may receive the blessings also.

And let's not forget to thank St. Faustina for working so hard on this painting. Because of her work, we can all receive many special blessings from the Lord. Thank you, St. Faustina!

Divine Mercy for Young Hearts

The Story of the Image of The Divine Mercy

After reading The Story of the Image of The Divine Mercy, read each set of statements below.

One of the statements is correct; the other is false.

Draw a circle around the correct statement and a line through the false statement.
